RRCA Associate Membership

Road Runners Club of America

Since 1958, the Road Runners Club of America has served as the national association of running clubs, running events, and runners dedicated to promoting long distance running as a competitive sport and as a healthful exercise. RRCA's mission is to represent and promote the common interest of its member clubs, events, and individual runners through education, leadership, programs and other services. The RRCA membership has over 175,000 individuals that make up over 700 member running clubs and events.

What is an Associate Membership?

Associate Membership is for IRS designated 501 (c)3, (c)4 or (c)6 nonprofit organizations. Associate members may or may not focus specifically on running, but a major component of their mission should be the promotion of exercise and healthy living in our communities. Organizations taking advantage of the RRCA group exemption status are excluded from Associate Membership. Non-profit running clubs, training programs, events, corporations, or umbrella organizations for running do not qualify for Associate Membership. However school based cross country programs and official governing bodies of sport may qualify. Associate Membership provides the opportunity to collaborate with the RRCA and their members to promote national health and fitness initiatives.
